

“How to remove and clean the J-Lock on my BO bin”

You should remove and clean the J-lock on your bin periodically. If dirt is caught in the lock, it may not work any more.

Here is a video showing you how to remove the J-lock:

https://www.youtube.com/watch?v=BSnmox3wHtQ&list=PLz-9_6gOoR_p8yIRaR-6lyBfNH3BD5c86&index=21

Once you have removed the lock you can handwash the J-lock or put it in the dishwasher. Then press it back in place once it is dry.
